| Inventor Search attached, related application 10/551,086 found, but no double patenting found, claims in instant application are more specific. The examiner will continue to monitor both applications for any possible double patenting issues. Further the claims in Patents 7,44,657 and 7,038,581 do not present any double patenting issues. For example, in patent 7,444,657 the selection of a location code is claimed, but fail to teach selecting a frequency channel based on signal strength. | 12/2/2008 | /JS/ |
